Hugh Deadmore Gets Jolt When He Finds Deadmore St.

Standing at the corner of E Main and Deadmore St., S. E. in Abingdon, Va., is Hugh Deadmore, of Mokena (right) with his brother Lew, and daughter Donna Lou of Blue Island.

There is a street car named "Desire" (down in New Orleans) and there is a street named "Deadmore" (down in Abingdon, Va.)

Speaking of streets, it isn't everyone who can have a street named after him, or his grandfather. However, a Mokena resident can lay claim to this distinction, and here is a photograph to prove it.

Last summer when Mr. and Mrs. Hugh Deadmore of Mokena and his brother and wife, Mr. and Mrs. Lew Deadmore and daughter Donna of Blue Island made a motor trip to Abingdon, Va. to visit their aunt, they were quite thrilled while walking along the street one day to run across a sign reading, "Deadmore, S. E." "I never knew I was so famous," observed Hugh Deadmore but his wife jolted him a bit by observing, "Maybe the street is named in honor of some other Deadmore."

At any rate, the sign intrigued them, for the history of Abingdon is intertwined with Deadmores. So Mr. Deadmore did a little investigating at the city hall and learned that the street was named many years ago in honor of his grandfather. Five generations of Deadmores have sprung up since Deadmore street was so named.

To Visit Relatives In Hamburg, Germany

Mrs. Hans Husfeld, of New Lenox, left today May 7, by train for New York, where she will leave Friday on the Home-liner, "Italy", for Hamburg, Germany, where she will spend the next four months with relatives. Mr. Husfeld and their daughter, Mrs. Donald Seivert and son, Carl, accompanied her to Chicago, where she entrained for New York.

Mrs. Husfeld will also visit Switzerland and Italy. This is her first trip back since coming to this country 30 years ago with her husband, her small daughter, and her parents. Her paternal aunt and uncle, who lived here, sent for them to come here after the first war. Her brother came first and liked it here so well that he sent for his parents, sister and family. Their daughter, Gertrude, now Mrs. Donald Seivert was then 18 months old.

During the last war Mrs. Husfeld's relatives in Germany lost their homes and all their possessions, but none of them lost their lives.

Mrs. Husfeld plans to leave Hamburg September 10 for the nine day trip back on the same liner, "Italy."

Once in a while in the course of a life work devoted to the training and inspiring of youth with many periods of weariness and discouragement in between there comes a day of compensation. This day came last Sunday for Miss Viola Lankenau, principal of Frankfort public school when open house was held in the school gymnasium during the afternoon to honor her for her 41 years of service given to the youth she walked with all these years.

This unforgettable afternoon was planned by members of the school board of District 157, the teachers, the alumni association and members of the Frankfort PTA. The gymnasium was decorated in the school colors of maroon and gold.

Miss Lankenau wore a corsage of a maroon orchid, and her mother, who was also present, wore a lavender orchid corsage. During all these years Miss Lankenau has been her mother's right-hand bower. The mother Mrs. Kate Lankenau, 84, is a semi-invalid. She was seated beside her daughter in her wheelchair, and assisted in the receiving.

The serving table was covered with a beautiful lace cloth and centered with a lovely bouquet of dark red carnations and golden baby mums, with lighted tapers. A silver coffee service and glass punch bowl were at either end.

This delightful affair was a complete surprise to Miss Lankenau until about two weeks ago, when it became necessary to inform her in order to have some pictures taken. Everyone seemed to rejoice with Miss Lankenau on this occasion in her honor, and to radiate happiness. It was clearly evident that Miss Lankenau, herself, was

Dear Mom

I thought I'd write you to-day
With a special thought, in a special way
To say the things I often wished I could,
But hoping you knew and understood.
When I was little and just so high,
You'd slick my hair and tie my tie.
You'd shine my old shoes until they glowed
And peek to see if my 'longies' showed.
When I was sick with a tummy ache,
You'd promise me a big sugar cake.
With such a promise, would be enough
To forget the medicine was terrible stuff.
Even before I started to school
You taught me, the golden rule,
Although now I've acquired degrees,
It was you, Mom, who taught me my A B C's.
You'd tell Dad, "let the boy have fun,"
Then I'd go skipping and then I'd run
Down to the orchard and shinney a tree
To find a red apple for my playmates and me.
Once when Jimmy and me had a fight,
Dad laughed and said, "that boy's alright"
But I saw your tears and felt your caress
When you came to hear prayers and help me undress.
Sometimes now that I'm on my own
I wish I was little and back at home.
Through the parlor windows I'd like to glance
And watch you patch my blue jean pants.
So you see Mom, that's why on Mother's Day
This little letter has come your way
Just to tell you, 'I love you,' and there'll never be
A more wonderful Mother than you were to me.

Have You Seen This Black Fox Terrier?

We want our dog back is the cry of Lina and Marilyn, daughters of John Matasovich who live on the former Bruder farm in Mokena. The girls lost their dog Sunday, April 24, and are heartbroken about it. He is a black fox terrier with a white chest, brown face and ears, and has a small tail. The dog answers to the name of "Jiggs" and is a good house dog as well as a good watch dog. He is very friendly with children.

Has anyone seen this dog or any idea as to his present whereabouts? If so call Mokena 2237 and help bring gladness back to the hearts of two very lonesome little girls.

FRANKF'RT MAN WEDS FORMER TINLEY GIRL

In a beautiful single ring ceremony in the St. Brides church in Chicago, Saturday, April 18 at 1 o'clock, Katherine Elizabeth Shipman, escorted to the altar by the groom's brother, Wm. E. Stelter of Tinley Park, became the bride of Edgar Herman Stelter, son of Mr. and Mrs. Herman Stelter of Frankfort. The bride is the daughter of Mrs. James Lester Shipman formerly of Tinley Park, and now living at 7945 S. Marquette ave. in Chicago. Rev. Leo F. Carton officiated at the ceremony.

Robert Zamzow, organist and soloist, sang "Because" and played Ave Maria, before the ceremony, and "Mother, at Your Feet I'm Kneeling," while the ceremony was being read.

The gown worn by the bride was of white nylon tulle, with short sleeves and shallow scoop neckline appliqued with chantilly lace. From the closely molded waist, the vast net skirt circled with scrolls of lace, drifted over several underskirts to the floor. Her waist-length veil of imported silk illusion was held by a band of pearl-touched satin leaves. Her jewelry was a two-strand pearl necklace and pearl earrings, and she carried a bouquet of white Amazon lilies and stephanotis.

A close friend of the bride Miss Dorothy Warrington of Riverside, was her only bridesmaid, and wore a gown of ice blue nylon tulle over taffeta with a full waltz length skirt and nylon tulle bolero jacket. She wore an ice blue face veil which was held together with sweetheart rosebuds. Her jewelry was also a two-strand pearl necklace and pearl earrings which were a gift from the bride. She carried a bouquet of American Beauty roses.

Jack Ryan, of Tinley Park, a friend of the groom, attended him as best man. Ushers were brothers of the groom, Wm. Stelter of Tinley Park, and Walter Martens of Traverse City, Mich.

The mother of the bride chose a dusty rose silk shantung, two piece dress, with brown accessories and her corsage was an orchid.

A navy blue crepe dress, trimmed with white lace, and worn with white accessories was the costume chosen by the groom's mother. She also wore an orchid corsage.

A buffet lunch was served to 80 guests at the Jeffery tea room, in Chicago. The centerpiece of the bridal table was a 3 tiered coronation style wedding cake. The bride's aunt, Mrs. Margaret K. Finkboner, of DeKalb, had charge of the guest book.

The honeymoon was spent motoring through the south and the newlyweds are making their home now in Milwaukee, at 1653 North Prospect.

The bride was formerly employed as a stenographer in the purchasing department of the United Air Lines, and is a graduate of the Academy of Our Lady, in Chicago. The groom is employed as an electronics engineer, at the A. C. Spark Plug Co. in Milwaukee and is a graduate of the University of Illinois.

WORK HARD ON MOKENA'S NEW PARK PROJECT

The enthusiastic work of a large task force and the generosity of public spirited residents of the Mokena area are bringing the dream of a recreation park and outdoor sports center to a reality. A group of 34 men and women canvassing the homes for cash donations and pledges are pushing doorbells to finish making their first calls which must be completed within the next two weeks.

Numbers have been assigned to each family in the area to enable Dean Rueckert to keep a complete official record. The amount given by each contributor will be known only to the team making the collection and to chairman Rueckert. Anyone may examine the park fund books to check the record of his own donation. Later the Rev. William Riemann pastor of St. John's church, of Mokena, will assist Mr. Rueckert with auditing and checking the receipts.

Purchasing and developing the park through volunteer contributions will prove less expensive in the long run than processing the project to be paid for by tax monies.

The following workers are captains and team members: Clarence Lauffer, Wendell Hamilton, Stanley Williams, Harold Clark, Milton Geuther, Gerald Nelson, W. A. Muehler, Robert Homerding, Kenneth Sherwood, Hans Mueller, Gordon Bruce, Charles Swanberg, Gerrit Swart, Henry Brueser, Henry I. Clark, Marian Owen, Henry Clark III, Roy Kropp, George Hahnlein, Walter Spiewak, Ray Hoolehan, Mesdames Jean Rodeghero, June Quinn, Virginia Sherwood, Rudolph Englehardt, Harley Mann, Harold Spiess, H. Three Men go on Fox Hunt in Mokena; Get Mother, 5 Puppies. Kill 4, Keep 2

LeRoy Erickson is in the center. The mother and three of the puppies were shot. The surviving foxes did not seem at all frightened, but very alert and keen to what was going on.

News-Bulletin Polaroid 1-Minute Photo

It had been known for some time that foxes were prowling around the Erickson and Aggen farms at 183rd and Wolf road Mokena, so Wednesday afternoon April 29, Dick Erickson, LeRoy Aggen and Seward Lee went on a fox hunt. They were not out long before they spotted the mother fox and shot it. Not long later they ran across the fox's den. They heard the little foxes playing in the den, and reaching in with a pliers got hold of each of them by the ears and dragged them out one by one. There were five fox

Family Film Nite For Luther League

On Saturday, May 9, at 7:45 p.m. the Luther League of the Zion Lutheran church will have a family film night. Two movies will be shown, and the Luther League choir will sing. The money taken in the collection will be turned over to the building fund.

Everyone is invited to attend and help the League make their program successful.

Saturday night the Mokena volunteer firemen are calling on the citizens of Mokena to aid them. In order to maintain and keep the Mokena community fire department up to top notch the firemen have been working strenuously for the past month promoting their dance and pinocle tournament, which will be held this Saturday night, at VFW hall on Wolf road in Mokena.

This is not news to anyone in this territory, because the firemen have taken great pains to inform everybody by sending out circulars and tickets, which they may buy for this dance. Now everything is set. A good orchestra has been engaged for the occasion, and everything is in readiness to receive the people who will want to attend this dance.

Even if you do not dance or play cards, it is always nice to attend a dance of this kind and listen to the good orchestra music and visit with friends and neighbors, who will be there in great numbers.

On the serious side of this picture, the firemen tell us that we can count on them if at any time there is a fire, and they are going to find out at this dance if they can count on us. The way to let them know for sure that they can count on us is by returning the money for the tickets which were sent, and by attending the dance with as many members of your family as can conveniently come.

Through past experience the firemen know they will not be let down by the people in this district because almost everyone has always been generous in paying for their tickets, even though they do not attend the dance. For they realize that by means of this dance they are not only helping the firemen but are also helping themselves to better fire protection for their homes.

Many a time, especially in bad weather, the firemen would much prefer to stay at home than go out, but when the fire siren blows there is never any hesitation on the part of any of them. They hurry to the garage, get the fire truck going and rush to the scene of the fire where they labor strenuously to save property, and if necessary will take personal risks to save life.

Perhaps some may not feel like attending the dance Saturday night, but these can at least be sure that their money is in the hands of the fire department, where the money will be used for the upkeep of their equipment, and as a reserve fund for any time that a new truck or equipment may be needed.

All the firemen are asking is \$3 from each family, and as this is the most inexpensive fire protection one could possibly buy it seems that almost anyone should be able to spare this small amount which covers so much.

See you at the firemen's dance

Chrysler's Air Conditioning Now

Chrysler Corporation's high-capacity air conditioning system is now available on all eight-cylinder Chrysler cars except the Crown Imperial. The unit, which will be available on six-cylinder models later, was perfected after 14 years of development work and is the joint achievement of Chrysler Corporation's automotive engineers and the experience of its Air-temper Division, one of the world's largest manufacturers of air conditioning, heating and refrigeration units.

One of the system's unique features is that it draws fresh air from the outside into the cooling system, thus avoiding the accumulation of stale air that is characteristic of systems that merely recirculate the same air.

Dealer in this territory handling these cars is the Bettenhausen and Schult Motor Sales in Tinley Park.

An open letter to the residents of Lincolnwood Hills:

We are not reporting any news from Lincolnwood Hills this week because we have not received any. We do not like to discontinue the column. We have enjoyed doing it and would like to continue, but we alone can not make news.

So as a last resort we would like to ask if everyone who has any news, please write a note and give it to the newsboy when he comes to collect. If the response warrants it, we will continue the column. If not, this is our farewell column.

The Home Owners association meeting will be held Saturday evening May 16. Election of officers will take place. This being the last meeting of the season we would like to urge every one to try to be present. Let's make it a 100 percent attendance.

Children, 7 to 11 To Camp in Palos

The "Indian Nation", composed of four Indian Tribes, Potawatomi, Iroquois, Illini and Fox will soon gather in a happy pow-wow for the summer. This meeting place for the Indians is nestled in the beautiful hills of Palos Park, on the South west Highway, and is the unique Foundation Farm Camp, where a selected group of children between the ages of seven thru eleven will find delight in the combined experiences of camping and farming. The camp is

one of the important aspects of the program of the well-known Community Center Foundation. The camp periods last for two weeks and the number is limited to 12 boys and 12 girls, there by enabling individual attention to be given. By working and playing together in an atmosphere of understanding and love each camper leaves with a better understanding of nature around him and greater love for his fellow camper as the camp is interdenominational and interracial.

Horseback riding is one of the very attractive features of the camp, as the children learn to ride spotted ponies, much like those the Indians of long ago rode in the Palos area. Other enjoyable activities include hayrack rides, sleeping out under the stars for a night, getting acquainted with farm animals, and the birds, rabbits, squirrels, and other wild life of the woods and of sharing these experiences with other boys and girls.

Applications are coming in daily. If you would like your child to have the privilege of being a camper at the Foundation Farm Camp, which will begin on June 28, with four per-

iods of two weeks each, and closes on August 22nd, you should get your application in at once. The address is Palos Park, Illinois.

Mokena Couple Sued By Peoples Loan & Homestead Assn.

A mortgage foreclosure suit has been filed against Mr. and Mrs. Laverne Kellogg of Mokena by the Peoples Loan and Homestead association. Other defendants named are people who have gained claims on the Kellogg property since the association took out its mortgage in October, 1948. The property which includes a frame house in which the Kelloggs are now living, was mortgaged for the loan. The suit alleges that the Kelloggs signed a promissory note for \$3,000, at which time payments were set at \$30 a month at a 5 1/2% interest rate.

According to the plaintiff, the Kelloggs defaulted on the September 1952 payment and have been in default ever since. Due on the principal, according to the association, is \$2,474.27, and \$85 interest from September to May, a \$45 insurance default and \$96.25 in arrears on 1950 taxes. The Kelloggs further defaulted according to the Peoples Loan, by permitting the premises to be forfeited for unpaid taxes to the State of Illinois in the amount of \$208.50.

In November, 1950, Household Finance corporation also entered a claim on a \$303 note during November, 1950, none of which has been paid. The Bersano Block company was awarded a judgment of \$360.69 in March, 1951, and the government, since then, has filed notice of a tax lien for \$199.03 with \$99.55 penalties and \$51.07 interest.

Defendants executed a trust deed in March, 1950, conveying the property to Franklin Newkirk, trustee, for \$597.98. They

borrowed \$2711.35 more in May 1950 in a similar manner from Dolores Ludtke. Harry Lawrence now holds this note.

The Peoples Loan association wants its mortgage foreclosed if the Kelloggs are unable to pay and the property sold, collecting the amount owed them through this means.

Corn Price Support Deadline Nears

May is the last month to get price supports on 1952 corn. Conrad Borms, Chairman of the Will County PMA Committee says price supports are made available to the farmers by means of loans and purchase agreements, both of which enable the farmer to get a "fair price" for his crop. Will county support price per bushel \$1.62.

Mr. Borms, says United States Agriculture department supports on corn are available thru May. Purchase Agreements may be obtained in the county office up to May 31. Loans must be applied for by May 15. These applications may be applied for at the Will County PMA headquarters, 157 North Ottawa St. Joliet.

Henke Brown Swiss Herd Leads DHIA Assn. 1 in April

According to the April report of Frederick A. Holm, tester for Dairy Herd Improvement Association 1, the Brown Swiss herd of Arthur G. Henke & Son, Tinley Park, led this group last month with an average production of 1073 pounds of milk and 45.1 pounds of fat.

Other high producing herds with productions, were owned

by the following: Donald E. Nice & McGlasken, Frankfort Holstein, 1071-43.4; Vally & Cagwin, Frankfort, Holstein, 1200-42.0; Melvin J. Heisner, Peotone, Holstein, 1132-41.0; Glenwood School for boys, Glenwood, Holstein, 992-36.4.

Louis Holm & Son, Mokena had the highest producing individual cow, a Holstein, which produced 1850 pounds of milk and 95 pounds of fat during the month.

Other high ranking individuals, all Holsteins, were owned by the following: Walter Lauffer, Tinley Park, 2000-94 and 1850-84, respectively, Herbert Kohl, Matteson, 1680-82; Louis Lauffer & Son, Mokena, 2190-81.

New Home Lab Water Tester Given

A unique home laboratory for comparing hard water with soft water was unveiled May 1 by Carl H. Leonard of Culligan Soft Water Service, 17028 Oak

Park ave. Tinley Park. The kit fills a need long recognized by the water conditioning industry and by the nation's home economists. It provides a specific answer to the question, "How hard is the water I use?" A simple three-step test demonstrates to every home maker the degree of hardness of the water which flows in her home.

The Culligan Water Analysis Laboratory contains a bottle of completely soft water, a bottle

of liquid soap, specially prepared for the test, and an empty bottle. The user is instructed to put one drop of soap into bottle "A" containing soft water, and to shake a couple of times until suds are formed. Then, while is instructed to fill the empty bottle with natural tap water. To this she adds soap, a drop at a time, shaking vigorously after each drop, until suds are formed. The number of drops of soap

required to form suds in the hard water reveals the hardness of the water in terms of grains per gallon. For example, if eight drops of soap are used the water is eight grains per gallon hard.

The Culligan Soft Water Institute, which created the test kit, also has developed a formula for estimating how much soap a home wastes. Multiplying the grains of water hardness by 5.8 reveals the number

of pounds of soap wasted per year by an average family. With eight grain hard water, the test finds that she is wasting about 46 pounds of soap each year.

The testing kits, with full instructions for use, are being distributed free by the local Culligan Soft Water Service Co.

OPEN HOUSE—
 (Continued from Front Page)
 one of the happiest persons in the entire assembly.

One of the most pleasant surprises of the afternoon was the presence of a boy and girl who had been members of her class in Monee, and who are now husband and wife. The couple came to the open house and brought with them a picture taken of the class at Monee many years ago, with Miss Lankenau as teacher. She had not seen this boy and girl for 38 years, but recognized them in the picture.

Among the guests present were County Supt. of Schools Mr. and Mrs. Verne Crackle, Miss Gladys Leatherman and Miss Edith Peterson from the County Supt. of Schools office in Joliet; Mr. and Mrs. John Oster, principal of New Lenox public school; Mr. Hunter Chapmar, Supt. of Lincoln-Way high school; Mrs. Elizabeth Cappel, principal of Mokena public school; Mrs. Anna McDonald, principal of Manhattan public school.

Throughout the afternoon soft entrancing organ music was played by Mrs. Warming of New Lenox. She is the former Edith Wischover, of Frankfort, and a former pupil of Miss Lankenau. General chairman of the open house was Mrs. Dorothy Woodman and Mrs. Albert Krusemark Jr. Presiding at the serving table during the afternoon were Mrs. Burton Breidert and Mrs. Wendell Morrison, of Frankfort; Miss Edith Peterson, Miss Gladys Leatherman, Joliet; Mrs. Elizabeth Cappel, Mokena; Mrs. Anna McDonald, Manhattan; Mrs. Clarence Klepper, Mrs. Robert Stadt, Mrs. Albert Krusemark, Mrs. Karl Mariefeld, Mrs. Clarence Waldvogel, and

Miss Evelyn Fulton, all of Frankfort.
 In charge of the guest book was Mrs. Fred Heiser and Mrs. Ralph Nieland from the Frankfort Alumni association. Miss Isabelle Harmening, Mrs. Waldvogel and Mrs. Mariefeld were in charge of the dining room. Mrs. Walter Schoen and Mrs. LeRoy Mager had charge of the kitchen.

Delicious home made cakes which were donated by all organizations in town were served with the coffee and punch.
 Miss Lankenau's first three years were spent teaching in rural schools. The next three years she taught in the public school in Monee, and since that time—41 years in all—she has taught in the Frankfort public school. For the past 11 years she has been its principal.

When she first came to the Frankfort public school there were 92 pupils; now, in the new school, there are 186 pupils. Next fall there will be a new classroom and an additional teacher.

Miss Lankenau is principal and Robert Stadt assistant principal. Miss Evelyn Fulton teaches 5th and 6th grades. Mrs. Doris Woodman, 3rd and 4th and Miss Isabelle Harmening, 1st grade. Miss Lankenau teaches English literature, spelling and penmanship in the 7th and 8th grades, in addition to her duties as principal.

She is a member of the Delta Kappa Gamma National Honor society of women teachers, and has been a member of this organization for the past six years. She is also a member of the National Educational Assn., the Illinois Educational Assn., Elementary School Principals Assn., Will County Superintendents and Principals Assn., and also a member of St. Peter's Evangelical and Reformed church at Frankfort.

The first Frankfort public school, which was built in 1870 was a typical country school house with the familiar cupola. It was a three-room wooden structure, and had no modern facilities. It was in service until 1925, when the present brick structure was constructed. This was enlarged in 1938 with the addition of a gymnasium. The new school is modern in every respect.

When Miss Lankenau first taught school in Frankfort there were only two teachers. Now there are six, counting herself and next fall there will be seven.

The average wages of school teachers when Miss Lankenau started teaching 41 years ago was \$65 a month for 9 months; now they average \$350 a month.

Miss Lankenau has always enjoyed working with and for the children, but her greatest joy is, now and then, to encounter one of her former pupils who has turned out to be a good and useful citizen. She has had the pleasure of teaching the second generation of school children. During this long stretch of time she has been so intensely interested in her work that she has been able to wear the years lightly.

Miss Lankenau is very grateful to those who sponsored this pleasant affair: to the members of the school board, the teachers, the alumni association, the PTA, those who donated the cakes, and for the many beautiful cards and gifts she has received.

Or This Way
INSTALLED IN A SEPARATE MILKING ROOM...
 Milking 30-35 cows per hour per operator is common practice in many dairies using the De Laval Combine Milker installed in a separate milking room in connection with either a loose housing or stanchion-type barn. Stooling, squatting, walking from cow to can and carrying milk are eliminated.
OR IN YOUR DAIRY BARN OR MILKING SHED
 Dairymen are enthusiastic about the wonderfully efficient results obtained with the De Laval Combine Milker installed in the barn or milking shed. One man milks 50 or more cows per hour. The teat cups are moved from cow to cow and the milk is conveyed through sanitary pipe to the milk room.

...and Handle Your Milk in Any of These Three Ways
Run Directly into Cans...
 Most Combine users have installations which automatically filter the milk and fill the 40 qt. cans in the adjacent milk house. Carrying and pouring are eliminated.
Aerate, Cool and Can...
 In some sections, such as California, the installation is arranged to filter and convey the milk and discharge it over a surface cooler, thence into the 40 qt. cans.
Discharge into Farm Tank
 The De Laval Combine discharges the milk into the refrigerated farm tank, from which it is either "canned off" or pumped directly into the milk tank truck.

Choice Lots Go On Sale!

A new section of lots will be opened in St. John's Cemetery, Mokena, and choice lots will be on sale at a 10% discount during May and June. There are some very good lots left on the old section. Prices will go back to regular at the end of June.

St. John's cemetery is the most beautiful and spacious cemetery in this area. Now is the time to secure lots, when the terrain can be seen and markers readily located. It is not advisable to wait until lots are needed and the selection has to be made in haste.

The sale is being promoted to increase the perpetual care endowment fund, which stands close to \$11,000 now, and to add to the general fund for the upkeep and beautification of the cemetery.

There is a section reserved for all war veterans and members of their families.

BABSON SAYS—

Copyright, 1953, Publishers Financial Bureau, Inc.

About 22,000,000 young people are currently enrolled in grammar schools. Of these, about 7,000,000 can be expected to attend High School.

Of these high school students, only about 2,000,000 will go to college, and even fewer will actually graduate therefrom. This means that of the 22,000,000 grammar school pupils only 9% will complete their education by going to a state university or college.

As one who has founded three colleges which are successfully teaching business administration, I want now to talk to the approximately 70% who will be quitting high school and will not attempt a college education. I further add to these the many millions more who have quit, in the grammar school grades, during the past ten years but are still young enough to learn.

I hope that every reader is proficient in reading, arithmetic, spelling and typewriting. If you are not it is your own fault. No one needs even a high

school education to get these fundamentals. If you are not proficient in these four subjects, you had better go to night school and catch up. If you have not a typewriter, you had better buy one at once. Very few who cannot operate a typewriter get good jobs.

What I am about to say is not a criticism of college degrees. They are worth what they cost in time and money. I am a graduate of the Massachusetts Institute of Technology and am proud of it. Those four years taught me "to do what I didn't want to do when I didn't want to do it," which is one important fundamental of success. I further highly commend night schools, correspondence courses and many other forms of "Extension Education" which are open today.

But here is my real message: Any industrious and spiritually-minded person can get the equivalent of a College education by referring each day to four books: 1. The Short Bible, published by the University of Chicago; 2. Webster's Collegiate Dictionary published by the G. & C. Merriam Co., Springfield, Mass.; 3. How to Live, published by Funk & Wagnalls, New York; and 4. any standard encyclopedia. All these books can be ordered thru your local book store. Probably there are other books which cover the same ground. I have no direct or indirect financial or other interest in these four except to use them daily.

I wish especially to say some thing about encyclopedia sets. I believe they offer the greatest value for their cost of anything you can buy if you will use one every day. If I were an unemployed young man, I would get a job selling encyclopedias and work up until I was general sales manager of the company. It is a work into which I could put every ounce of strength and intelligence. In fact, I would offer the above four books in one package as a "college education."

I was once employed by the Curtis Publishing Company to discover some kind of industry from the manufacture of baby foods to coffins—in which no one had yet made a million dollars! I utterly failed to find such an industry. Furthermore, I found that the heads of these successful businesses had come up through different departments—some as stenographers, some as bookkeepers, some as salesmen, some as "common laborers" at the bench. Some of them had been very poor; some were crippled; and most of them had no College education. But many of them used each day the four above-mentioned books or their equivalent.

It is important that you get into the department for which you are best fitted; but every job in every industry offers a great future to those with character, industry, initiative and persistence. I care not whether you are white or black, poor or well to do, married or single, young or old, with or without a College education, every reader of this column has great opportunities today.

A Flame In Chains

Lesson for May 10, 1953

YOU can keep a dog on a leash but not a flame. Passing a hand-cuff over a fire is no way to keep it where you want it. Now the man Paul was more like a flame than most men are. Some men are like lumps of clay. They stay where they are put and they never give trouble—and never amount to anything. Others are like fire. They have a life of their own, they can be terribly dangerous or wonderfully helpful. Paul was like this; he had been a kind of devil when he was persecuting good Christians. Now he was a missionary, an extremely successful one; but still a man of fire. He had got into trouble with the authorities; had been through a series of trials; had appealed to the Imperial court, highest in the Empire; and had been sent as a prisoner to Rome. For at least two years (some say for the rest of his life) he never was a free man in Rome. And still all the time he was preaching, testifying, just winning friends for Jesus. You can't chain a living flame.

Dr. Foreman

Strange Answers

The story of Paul and how he got to Rome has at least three messages for us today. One is this: God sometimes answers our prayers in strange ways. As we know from Paul's letters, he had had a visit to Rome in mind for a long time (Romans 15:23). It was the capital of the great Empire; the church founded there was destined to have great influence. Paul sent the Christians there the most careful and complete letter he ever wrote. God answered Paul's prayers and hopes, and so Paul in time reached Rome; but not at all as he had hoped. He was a prisoner; the outcome of his trial in Rome was uncertain, and if he lost his case, it meant death. You would have thought Paul's mind would be shadowed by foreboding; but it was not. He realized that his prayers had been answered, and he did not grumble that they had not been answered as he might have expected. So when we think our prayers have not even been heard, we might look around us; perhaps they are already answered in some way altogether a surprise.

No Prison for the Word

Tradition says that Paul was acquitted at his Roman trial, but was arrested again some years later. At any rate, from a Roman prison he wrote his young friend Timothy (as Moffatt translates it) "There is no prison for the Word of God." (II Tim. 2:9.) That is the second message from Paul's experiences as a prisoner. Men can be imprisoned, tortured, killed; but the Word of God goes on and on. If the Christian religion had been no more than a set of notions, it would have died a natural death centuries ago. That Christianity has lived is one of the evidences that it is true. It is a comfort to remember this today. People get discouraged about the church in China, in Poland, in Hungary and Bulgaria and Russia. It is certainly a fact that Christians have a hard time in those places; but it is also a fact that there are Christians there and some of them will not give up their faith.

Nothing Need Shut Our Mouths

When Martin Niemoeller was a prisoner, absolutely not allowed to walk in the yard even, nor to associate with other prisoners, because as a Christian minister he had dared to say "No!" to Hitler, he used to sit at his cell window which was near the yard, and listen to the men as they went by. One of these used to repeat a verse of Scripture aloud every day and Niemoeller would hear it and take it as a message from his friends, and from God. There is another story about a Japanese guard in charge of American prisoners, some of whom sang Christian hymns. He knew one English word: Jesus. Whispering this name, he used to bring the men medicines and things they needed even at risk to his own life. If it is impossible for a prisoner or for a guard in a war-prison, surely the most unlikely of all places, to let himself be known as a Christian, is it likely that anything need shut our mouths? To speak a good word for Jesus is not always easy; but it is never impossible.
